

Dear Residents

Facial recognition

As noticed at our Main Gate, the installation of our facial recognition hardware has been met with great success during the past two weeks. The response from the readers has been very good, and we hope this will continue over the next few weeks of registration.

Every resident who currently has access to the Main Gate, will have the opportunity to register their profiles for access to the Estate. The facial registration is not currently done through Entry Pro but will be duplicated after the initial registration and run period are completed.

The registration of facial profiles is done through the installers of the hardware, Bsafe Systems.

Download and registration

Residents which use the IStore, to please follow the following link:

<https://apps.apple.com/in/app/id915581860?mt=8>

Residents which use Android to please follow the following link:

<https://play.google.com/store/apps/details?id=com.openitemapp.bss&hl=en>

Residents who use the Huawei store to please follow the following link.

<https://appgallery.huawei.com/#/app/C102701559>

After registration, an email will automatically be sent to the HOA, and your current access to the Estate verified and confirmed for access.

Any queries can be forwarded to me.

As an additional item, please see the attached document for assistance in the registration process.

Best Regards

Rassie
